Subject:	Request Guidance in Obtaining a FOIA Tracking Number for Certification of a TSCA Public Document for a Customer [Bo Lee of Levin Simes, LLP]

Importance: High

Good Morning,

I am the TSCA Docket Coordinator for OPPT. One of my duties is the assist the OPPT Public Docket staff [Lisa Medley] when she receives requests from the public for certification of document. I recently received such a request and require a FOIA tracking number to complete this process. In the past, I would send the requestor's email to the FOIA staff and then I would receive a FOIA number via email. It is my understanding from one of my co-workers [Paul Cestone of OPPT/NPCD], that this process is done now electronically. If one of you can assist me, I would appreciate it.

I have forwarded the Requestor's email below for your review.

Thanks!

Pam Moseley

**Subject:** Request for docket

Hello,

I am interested in obtaining an authenticated blue ribbon copy of a specific industry submission under the Asbestos Information Act of 1988. The identifying information is OPTS-62073, Asbestos Information Act (14 pages)

I have been told by my local EPA librarian to ask for index to Docket #62073.

Would you be able to assist? I'd appreciate any help.

Thank you,
Bo
